## **Acknowledgements**

This curriculum was developed by Marc Schuckit, MD, University of California-San Diego, School of Medicine and Veterans Administration Medical Center, San Diego, CA in collaboration with the Addiction Technology Transfer Center of New England (ATTC-NE), located at the Brown University Center for Alcohol and Addiction Studies. It was produced with support provided by the Center for Substance Abuse Treatment, Substance Abuse and Mental Health Services Administration, United States Department of Health and Human Services, Grant # U98 TI00846. The efforts of the following individuals contributed significantly to this development:

***Marc A. Schuckit, MD***

*University of California - San Diego  
School of Medicine and Veterans  
Administration Medical Center,  
San Diego, CA*

***Addiction Technology Transfer  
Center of New England  
Brown University  
Center for Alcohol and Addiction Studies***

*Substance Abuse and Mental Health  
Services Administration,  
Center for Substance Abuse Treatment*

***David C. Lewis, MD***  
*ATTC-NE, Principal Investigator*

***Susan A. Storti, RN, MA, CARN, CAS***  
*ATTC-NE, Project Co-Director*

***Catherine E. Dubé, EdD***  
*Project ADEPT, Brown University  
Center for Alcohol and Addiction Studies*

***Jessica L. Toohey, BA***  
*ATTC-NE, Program Coordinator*

Layout and design by Phyllis Arnold, BFA, Addiction Technology Transfer Center of New England, Brown University, Center for Alcohol and Addiction Studies, Providence, Rhode Island. Martin Mahoney, MS, CAGS, Amherst, Massachusetts, served as an instructional design consultant for the project.

Additional assistance was provided by Ann Reid at the Addiction Technology Transfer Center of New England, Brown University, Center for Alcohol and Addiction Studies, Providence, Rhode Island.

## ***Note to Instructors***

*This volume of materials consists of six modules. It is designed to assist health care professionals in screening, identification, and presentation of a diagnosis reflective of drug and alcohol problems. In addition, this package provides a basic understanding of detoxification, effective treatment approaches for substance abuse disorders, how alcohol and drug problems may present in the context of dual diagnosis, and the genetic basis for substance abuse disorders. The material in this curriculum package is designed to be used as the basis for instructor-led teaching in a group setting.*

## ***Objectives***

At the end of these modules, participants will be able to:

1. Define and understand addiction terminology.
2. Distinguish the differences between drug categories.
3. Describe substance-related treatment protocols.
4. Articulate the DSM-IV criteria for Substance Dependence.
5. Differentiate between substance-induced psychiatric disorders and independent major psychiatric disorders.
6. Describe detoxification treatment protocols.
7. Describe comorbidity in individuals with substance use disorders.
8. Describe the importance of genetic factors in substance abuse disorders.

## ***Organization***

Project *ADEPT* Volume VI contains the following modules:

- |          |   |
|----------|---|
| Module 1 | An Overview of Drug Abuse and Dependence                  |
| Module 2 | Diagnostic Considerations for Substance-Related Disorders |
| Module 3 | Treatment of Substance Use Disorders                      |
| Module 4 | Detoxification  |
| Module 5 | Dual Diagnoses in the Context of Substance Use Disorders  |
| Module 6 | Substance Abuse Disorders with Emphasis on Genetics       |

### *Recommended Teaching Methods*

A variety of teaching materials are provided here to allow instructors to use modules in several different settings. Instructors using this volume of teaching materials will likely have varying levels of expertise in the various content areas. Therefore, we suggest that the instructor develop a working knowledge of each content area covered.

### *Materials Provided in Each Module*

- Teaching Outline
- Masters for overheads
- Masters for slides
- Masters for handouts

### *Equipment Requirements for Teaching*

- Overhead projector or 35 mm slide projector

### *Preparation Checklist for Volume IV Teaching Modules*

- Assign recommended readings to class
- Prepare overhead transparencies or slides
- Duplicate handouts
- Arrange for projector
